REPORT BACK ON HIV & ME PROGRAM

The above-mentioned school hereby wish to congratulate SASOL and facilitators from HIV & ME by giving such important and useful information to our grade 8 & 9 NS and LO educators for the better future of our learners.

We are very much happy and impressed because these lessons encouraged our learners in gr. 8 & 9 to disclose their status. Parents/Guardians also not afraid to disclose the status of their children to the school.

According to our view, this program is an additional tool to our School Based HIV/AIDS Policy.

Can you please give this information to all school in the FS Province and extend it to community gatherings.

* HOD (LO) & COORDINATOR HIV & ME : M.L. TLADI

* HOD (NS) : S.A. KULASHE

TO WHOM IT MAY CONCERN

The school wishes to thank HIV & Me together with Nandos for everything they have done for the school.

The knowledge we obtained as educators together with our learners will be a lifelong one. The facilitator did her work with great enthusiasm and determination which led to us being the host school to be more willing to disseminate the information to other educators, learners as well as the community at large. Thanks to Yolanda, a principled lady who does her work with integrity and wonderfully. For the mere fact that the module^s encompass the learning outcomes of our NCS, that has eased the burden on educators with regard to methodology when lessons are being presented. Thanks for being the fortunate school to be offered this opportunity, we are going to utilize this knowledge to our level best.

Thanks also to NANDOS for their contribution and information they gave us in connection with assistance to people who are affected with HIV. The information is vital and we are now aware of the kind of assistance we can get from NANDOS. Please don't forget us in future when such projects are in progress.

Thanks a lot.

Yours faithfully

E.B. MONGQATO
HOD (SOCIAL SCIENCES)

Letter of appreciation

The school would like to express their gratitude to Rand Water, GDE Ekurhuleni South District and HIV & Me for providing them with such an informative workshop about HIV and Me.

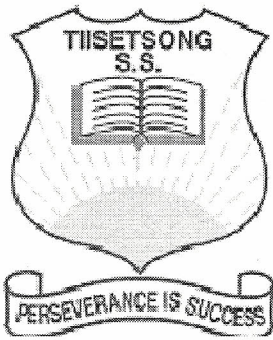

Showing us practically how the transmission of the HIV virus occurs, spreading by attacking the immune system happens, brought to us the reality and better understanding of HIV and Aids facts.

We also appreciate the fact that every educator was given a resource file, this will ensure that life long learning is maintained at the school

Please keep on educating the nation. We also promise to cascade this knowledge to our colleagues.

Thank you
LO & NS educators

To whom it may concern :

This serves to confirm that Tiiset song Secondary School educators for Life Orientation and Natural Science were trained in how to deliver HIV & Aids material effectively.

We would like to thank S C Johnson – a Family Company for supporting the school to take part in the training workshop which was conducted at the school on 4 August 2010. The workshop was professionally conducted.

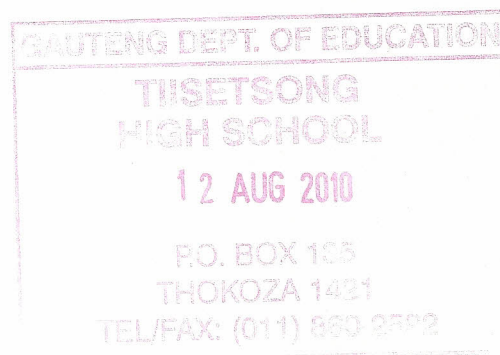

We also thank HIV & Me for the delivery which was flawless. The facilitator did his job well.

Tiiset song is very grateful for being given such an opportunity. We believe our Educators and learners will benefit from the material provided as well as the knowledge shared during the training workshop.

Thank you S C Johnson and keep on supporting our under privileged community through education. This is one of the ways of empowering our learners who would also spread the word in their families and communities they live in.

Thank you

Mrs Ramaisa M.L.
Deputy Principal.

TO WHOM IT MAY CONCERN

Wedela Technical School would like to thank Harmony Gold for funding the HIV & Me Teacher Training Workshop which took place at the school on the 18th of March 2010. Besides the educators who were trained, members of the community were also trained through their NGOs which are Isolomzi Home Based Care and Thabo Merafong Home Based Care. The Department of Health also had two representatives who attended the training workshop. That is Ms Feziwe Fiti and Mr. Lovias Matihabe.

We also thank the Department of Education – Gauteng West for allowing the Technical School to take part in the Training as well as coordinating the event from Randfontein.

Finally we extend our sincere gratitude to HIV & Me for the training and materials. It was professionally conducted. The educators enjoyed the various training methodologies which were used to present the training.

Thank you all for the support. We hope you will continue to support the school in future and make a positive contribution to our community with regards to HIV & Aids.

Regards

Ms A.N Buthelezi

Deputy Principal – Wedela Technical School
